

Use this chart to see which Sleep by Design™ mattresses and foundations are compatible with which Ethan Allen beds.

OUR TIPS:

- Most people like their sleep surface to be between 24" and 30" above the floor. Use this formula to make sure you're in the right range:
Distance from floor to bed base + mattress height + foundation height = sleep surface height
- Lower sleep surfaces work well for modern bed styles. They're also good for ease of entry.
- If you have any questions, we're here to help! Click our Live Chat button or visit a Design Center, and one of our designers will assist you.
